Employment History

07.2021 – 04.2023

■ **Warehouse Associate -** Amazon

Dunfermline

Experienced Warehouse Associate at Amazon, specialised in the customer returns department. Efficiently processed and managed returns with precision and a strong focus on customer satisfaction. Awarded **'Employee of the Month**' for performance and quality metrics.

Education

09.2019 – 05.2023

■ **Abertay University Dundee**
BSc (Hons) Ethical Hacking

> **Relevant Courses**: Ethical Hacking, Web Application Penetration Testing, Advanced Digital Forensics, Introduction to Security, IoT and Cloud Secure Development, Professional Project Planning and Development, Computer Networking, Programming with C++, Data Structures and Algorithms.

- During my ethical hacking degree, I acquired proficiency in utilising a wide range of tools such as Nmap, Nessus, OpenVAS, Metasploit, Wireshark, Burp Suite, and OWASP Zap.
- I gained practical experience in conducting comprehensive vulnerability assessments and penetration testing of Web Applications and networks, including Active Directories.
- I developed a strong sense of responsibility in promptly reporting any security breaches and vulnerabilities discovered within the system or network.

> **GPA** (1-4.5) *2019/20* - **3.4**, *2020/21* - **3.3**, *2021/22* - **3.8** *2022/23* - **3.4**

09.2017 – 05.2018

■ **Abertay University Dundee**
BSc of Science in Applied Networking

My BSc in Applied Networking provided me with a strong foundation in network architecture and design, as well as hands-on experience in configuring and troubleshooting enterprise-level networks.

Projects

EasyScan application

A Python-based vulnerability scanning application, utilising OpenVAS, designed to generate comprehensive reports on security vulnerabilities. It caters specifically to users who may have limited familiarity with cybersecurity.

Active Directory Attack and Defense Methods utilising MITRE ATT&CK Framework
The project was undertaken as an honours project with the objective of exploring different techniques for both attacking and defending Active Directory environments.

ADDITIONAL COURSES

- **Active Directory Enumeration & Attacks @HackTheBox**

Provided in-depth knowledge and practical skills related to Active Directory enumeration and the associated security threats.

- **AWS Academy Cloud Foundations**

Provided a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support.

- **Complete Beginner Learning Path @TryHackMe**
- **Offensive Pentesting Learning Path @TryHackMe**

Hobbies

My biggest passion is road cycling, where I find immense joy in pushing my limits and exploring scenic routes. During my leisure time, I enjoy listening to rock music and attending concerts. Rock music inspires me, and the live concert experience energizes me, allowing me to connect with fellow music enthusiasts.
